TABLE OF CONTENTS OF "METEOROLOGIYA I GIDROLOGIYA" FOR 1952

[Comment: This report contains the table of contents for 1952 of Meteorologiya i Gidrologiya, published in Moscow/Leningrad, as listed in the January 1953 issue of that periodical. Authors' names, when given, are listed alphabetically.]

General

"Toward New Attainments in the Field of the Hydrometeorological Servicing of the National Economy in 1952," No 1, pp I-III

"Resolutions of the 19th Party Congress, Originated by the Genius I. V. Stalin, Determine the Paths in the Struggle for the Victory of Communism," No 11, pp I-II

Chebotarev, A. N. and Klibashev, K. P. "For the Strengthening of the Bond Between Hydrological Science and Industry," No 5, 3-7

Skobtsev, K. A. "For the Specialized Hydrometeorological Servicing of the National Economy of the USSR," No 4, 3-8

The Stalin Plan for the Transformation of Nature

Alekseyev, G. A. "Width of Water-Regulating Forest Belts," No 2, 38-41

Chebotarev, A. I. "Principles Governing the Disposition of Protective Forest Plantings in the Fields of Kolkhozes and Sovkhozes," No 3, 3-7

Konstantinov, A. R. "Problem of the Influence Upon Atmospheric Precipitations of the Complex of Measures in the Transformation of Nature," No 8, 7-12

Popov, Ye. G. "Problem of the Artificial Regulation of Runoff and of the Increasing of Moisture Content of Soils Under Conditions of Forest-Protective Afforestation," No 3, 8-12

Protserov, A. V. "Coefficient of Soil Assimilability of Precipitations Which Fall in the Region of Irrigation by the South Ukrainian and North Crimean Canals," No 5, 18-22

Sapozhnikova, S. A. "Climate of Oases Under Conditions of Central Asia," No 3, 13-17

Timofeyev, M. P. "Meteorological Effect of Irrigation," No 11, 9-14

Uryvayev, V. A., and Chebotarev, A. I. "Stalin Plan for the Transformation of Nature and the Tasks of Hydrology," No 2, 3-9

Voskresenskiy, K. P., and Selyuk, Ye. M. "Some Works on the Hydrological Provisions of the Volga-Don Canal imeni V. I. Lenin and of the Tsimlyansk Reservoir," No 11, 22-26

General Meteorology

Ayzenshtat, B. A. "Method for the Determination of the Radiational Balance of Slopes," No 2, 24-28

Arabadzhi, V. I. "Possible Cause for the Electrical Field of the Earth," No 3, 33-34
